# READY to BAKE

*pies and cobblers*

WE DON'T MAKE JUST ANY PIE OR COBBLER—we assemble each treat by hand using only the best ingredients to be found, including berries grown right here in the Willamette Valley. Plus, you'll find they're super easy to prepare—just bake, cool and enjoy.

## LARGE PIES *unbaked*

Our pie-making fiends don't believe in fillers or ingredients you can't pronounce—just real dough, real fruit, real sugar...the best all-natural ingredients from top to bottom. Our pie crusts are made from scratch, filled with fresh fruit, hand-shaped and sealed to perfection. Placed directly in the freezer upon completion, these pies are as good as they get.

*All of our pies and cobblers are full of all-natural fruit with no additives, preservatives or starches. When you bake one, every ingredient is cooked for the first time.*

## COBBLERS *unbaked*

Our cobbler recipe combines our freshly frozen fruits with a layer of traditional cake batter. The batter is generously spread over the bottom of the pan, then covered with our flavorful fruit and topped with a layer of delicious crumbles. This treat is available in both large and small sizes. Fresh out of the oven, these cobblers are the best you'll find!

*Because every bite of pie and cobbler is packed with fruit, you'll enjoy bursts of flavor—and some health benefits too! In fact, Oregon Marionberries top the antioxidant charts, helping fight cancer, heart disease and circulatory diseases.*
